

# CHICANES AND BARRIERS

The Kalitec chicanes make it possible to secure the entrance to the trails and drastically reduce the speed of its users.

# BENEFITS

## Robust

Resistant to corrosion and discoloration due to UV rays.

## Easy installation and removal

Installed on planted anchors requiring no concrete blocks, thus avoiding costs and facilitating maintenance in winter.

## Customizable

Choice of shapes, sizes and colors on request.

## ➤ CHICANES AND MODULAR BARRIERS

- 100% customizable.
- Manufactured with aluminum.
- Equipped with a simple locking system that allows the passage to be quickly opened to emergency vehicles.
- Can be installed on a wooden structure or using our anchor plug systems.
