

## KALITEC TECHNOLOGY :

### Print Armor™

Designed especially for outdoor public places, Kalitec Print Armor™ technology makes billboards more resistant by protecting them against graffiti, vandalism and fading due to UV rays.

# BENEFITS

## Durable

Guaranteed for 10 years against excessive fading due to UV rays.

## Anti-graffiti

The panel can be easily cleaned with a cloth and isopropyl alcohol.

## Semi-gloss finish

In addition to adding an aesthetic finishing touch, it also limits unwanted reflections.

## THE DIFFERENT APPLICATIONS

Print Armor™ technology completely covers the surface of signs and posts installed in public areas with a semi-gloss thermoplastic protective layer.

### Information panels

### Interpretation panels

### Routing signs

### Directional signs

Print Armor™ technology is the result of nearly 10 years of research and development to provide unparalleled protection.
