

PERSONALIZED SIGNAGE :

Routing signs

Kalitec routing signs are designed to guide users efficiently while blending perfectly into their environment.

BENEFITS

Economical and ecological

Driven piles eliminate the need for a solid concrete base, reducing costs and their environmental impact.

Easy setup

Quick installation in all types of soil or in concrete thanks to our Kalifix™ technology.

Robust

25 year warranty against perforation due to corrosion.

Customizable

Différents éléments, supports, couleurs et dimensions disponibles au choix.

GUIDE, INFORM, WELCOME

- Cut into various custom shapes that take into account their use, location as well as visibility and safety standards.
- Manufactured from premium aluminum alloy with welded reinforcement bars at the back making them extremely strong.
- Walkways : features our Print Armor™ technology that protects the print surface against premature UV aging and vandalism.

Kalitec offers free design including preliminary shop drawings and budget evaluation, as well as consulting services free of charge to assist you in carrying out your signage project.
